The MANUFUTURE CONFERENCE 2009 – IMPLEMENTATION OF A SUSTAINABLE EUROPEAN MANUFACTURING INDUSTRY will take place on November 30th to December 1st at the Swedish Exhibition & Congress Centre in Gothenburg, Sweden (<http://www.svenskamassan.se/index.asp?lang=EN>). Participation is free of charge but by invitation only. This conference is held in association with the EU Swedish Presidency 2009.

Implementation of a Sustainable European Manufacturing Industry

The Manufuture 2009 conference theme is “Implementation of a sustainable manufacturing industry”. How can sustainability be implemented in the day-to-day business agenda? How do leading companies work with sustainability? Focused industrial visits at Swedish companies that have implemented different aspects of sustainability in their operations are a natural part of the program.

Conference agenda:

The event starts on Sunday November 29th, with a welcome cocktail at 20h00 and ends at 14h30 on Tuesday December 1st. We suggest that you block your agenda and start preparing your trip.

All sessions, workshops and industry visits will be focused on sustainability from economical, ecological and social perspectives. We will hear about best practice from European industrialists and visit companies that are working with sustainability. “Factories for the Future” will be another important part of the agenda.

Travel and accommodation:

Please note that Gothenburg has two international airports, Göteborg Landvetter Airport and Göteborg City Airport with flights from many European cities.
