Save the date

Join us for the European Photonics Partnership
Annual Meeting on 26 and 27 April 2023
at the Radisson Collection Hotel in Brussels

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

Your sponsorship investment

Increase your visibility and demonstrate your support for Photonics towards Horizon Europe!

With more than 300 decision makers from European Industry & Research, the European Commission, the European Parliament and national and regional public authority representatives the Photonics PPP Annual Meeting has become the flagship event of the European photonics community to determine the Photonics Strategic Research and Innovation Agenda for Europe.

Demonstrate your commitment to the Photonics Partnership

As the Nobel Prize laureates outlined in their letter to the EC: „Photonics is simply essential for powering the future European digital economy and for driving advances in many sectors such as in health, mobility, security and space.“

 - on the Photonics21 website (sponsor logo & website link)

- 1250 € plus 19% VAT

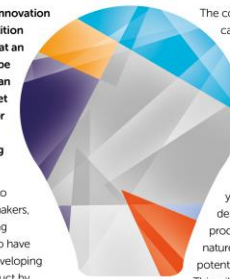

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

Photonics21 INNOVATION AWARD

Strengthen Entrepreneurship in Photonics

The Photonics21 Innovation Award is a competition for business ideas at an early stage. It can be a simple thought, an idea you cannot get out of your head or an idea that you have been working with for a while.

Photonics21 aims to support talented makers, students, and young entrepreneurs, who have a real interest in developing an idea into a product by combining creativity with photonics. For making this support possible Photonics21 teams up with PhotonHub, the pan-European digital innovation hub for photonics.

The contest consists of a cash prize of €5,000, an entrepreneurial skills training, and contact with Venture Capitalists.

To participate, you will need to send in a maximum two-minute video presentation of your concept, or a written description of your idea/product making clear the nature of innovation and the potential impact to industry. This will be reviewed by a jury of experts.

For more information on the contest, and to fill in the application form visit www.photonics21.org

Application deadline: 15 February 2023
