The MedFIT pitch sessions offer the opportunity to detect the most innovative and promising start-ups, R&D projects and licensing opportunities in order to foster partnerships and business development opportunities in the MedTech, Diagnostic and Digital Health fields.

**Start-up Slams**

The Start-up Slams are a great opportunity for young companies (and particularly for start-ups seeking to raise a financing round) to showcase their project in front of potential partners and investors. The winner will be awarded as the most innovative start-up in Europe.

**Collaborative and licensing opportunity presentations**

The Collaborative and Licensing Opportunity Presentations enables TTOs, universities, research institutes and companies to showcase their technologies in front of potential partners, in order to entail a collaborative project and/or a licensing deal. The winner will be awarded as the most promising technology in Europe.

Selected candidates will have enhanced visibility on MedFIT communications and the opportunity to be coached to improve their pitch during a warm-up session with MedFIT Steering Committee members.
