

PROTOTYPE YOUR IDEA CONTEST

Prototype Your Idea is a competition for business ideas at an early stage.

It can be a simple thought, an idea you cannot get out of your head or an idea that you have been working with for a while.

Photonics21 aims to support talented students, who have a real interest in becoming entrepreneurs by combining creativity with photonics.

Apart from this, you will have the opportunity to get a spot in the ACTPHAST EU innovation

incubator to carry out a full feasibility testing of your idea worth up to €30,000 provided in-kind by giving access to Europe's top photonics experts and infrastructure including a start-up business coach.

In order to participate, you will have to send in a max. 5 minute video presenting your idea. This will be reviewed by an expert jury.

For more information on the contest and to download the application form visit
